THE REVENUE INVESTIGATION-THE REBELLION IN GEORGIA—OLMSTEAD—GEPUBLICAN DEM-ONSTRATION—ROBERT LINCOLN—SPEAKER COLFAX—JEFFERSON D.VIS'S TRIAL.

WASHINGTON Tuesday, Sept. 22, 1868. The sub-committee on tetrenchment, which has in charge the investigation of the difficulties attending the appointment of supervisors of the Internal Revenue met to-day st the Treasury Department, and began business. Secretary McCulloch and Commissioner Rollins were the only witnesses examined From their testinony it seems clear that the whole fault of the non-sppointment of supervisors as provided by law is with the Secretary of the Treasury and the President. The power of appointment is vested in Commissioner Rollins, subject, however, to the confirmation of Secretary McCulloch. Jumediately after the adjournment of; Congress, Mr. Rollins made all the appointments, selecting such men for the positions as were recommended by the Congressmen of the various Internal Revenue districts. Secretary McCulloch, it appears, was willing to confirm the majority of Mr. Rollins's appointees. but the President interfered, and advised him not to do so unless half the number were Democrats. Mr. Rollins refused to enter into any such arrangement, and then followed the President's effort to force him. The committee will hold its next meeting in New-York city, and will there take up the Binckley fiasco. A number of Democratic politicians from Ohio arrived here to-day, to urge the President to hurry up the appointments in the Internal Revenue De partment of their State. Among them are several from Vallandigham's District, who say that no one can be appointed in their District except with Vallandigham's consent.

There was a long session of the Cabinet to-day. and it is said that during the discussions therein it became necessary for the members to show how they stand politically. Seward talked of being old, and auxious for retirement, and hinted that just now he preferred Grant to Seymour. Welles and McCulloch were emphatically for Seymour and Blair. Browning and Randall were not in attendance. Schofield, of course, talked Grant, while Evarts gave the President renewed assurances of his friendship for him-It is probable that the Secretary of War will tele graph, to-day, to the General commanding in Georgia to make a full investigation of the riot at Camilla. Ga. Gen. Schofield was long in consultation with the President in Cabinet this afternoon, and the Georgian outrages are supposed to have been dis-

I have advised the gentleman who brought the fraud to my notice to call and reciaim the \$5 extorted from him, and I hope you will advise every manufacturer from whom money has been thus extorted to reclaim his money. It is equally fraudulent in the Assessor or Assistant Assessors to refer parties to a lawyer to fill up the bonds. The Government furnishes the blank bonds, and pays for filling them up."

It is said that Olmstead's property will cover the amount of his defalcation. In addition to property in this city, he owned a large farm near Beltsville. Maryland, and several acres of land in North Carolina, for which purchase-money has been paid. It is said that the Government money in his possession was used only a short time ago to pay notes which had been given for the North Carolina lands. Of the several deposits of bonds, money, etc., in sums ranging from \$100 to \$1,500, left with him by various clerks in the Post-Office Department, all were found in the safe, excepting one package containing \$2,600 in bonds, belonging to Gen. Pedro, an old clerk of the Department. Olmstead's bondsmen are William R. Snow, and John F. Coyle, of The National Intelli-

Decidedly the largest political demonstration that has been witnessed in Washington for years was made to-night, notwithstanding the continuous fall of rain during the entire evening. Not less than 5,000 torches were in line, and the city resounded with cheers for hours. The procession passed through the principal streets, with music, banners, and transparencies, the vast multitude filling up the broad avenues and making a very imposing display. No speeches were delivered.

The Georgia Members who came here arxious to take their seats, are going home not pleased with their lack of success. An actual count shows that there was a quorum of Members of the House at the Capitol yesterday. # TRIAL OF JOHN H. SURRATT.

TRIAL OF JOHN H. SURRATT.

Washington, Sept. 22.—In the Criminal Court this morning the counsel for Surratt entered their special plea, setting forth the Amnesty Proclamation of July 4, in defense, claiming that Surratt is within that part of the proclamation which pardons all persons who may have been guilty of treason, felony, &c., who were not then under indictment for those offenses in any court of the United States having competent jurisdiction. The counsel claim that he was at that time solely under indictment for murder at common law, and not for treason or felony, and that consequently he is entitled to the benefits of the proclamation. To this the prosecution cuters special demurrer, and will proceed to argument. The Isited States, by its attente, E. C. Carriegton, comes into Court and demurs to the special plea field by the defendant in the above entitled case, and says the same is insufficient in law, because the Freshodent's Proclamation therein set forth, bearing the date of July, 1868, except thereform all such persons as may be under indictment or present undat in any court of the United States, having competent invidently unpun a charge of treason or other felions, and because and plea fores not show said defendant was under indictment or present undat in any court of the United States, having competent invidence unpun a charge of treason or other felions, and because the proclamation as indictinent or present invidence in the said and the said fractions and because the proclamation was made, and because the same is insufficient, and for other good and sufficient reasons, and because the proclamation was made, in document the finite demurrer. Mr. Bradley, for the prisoner, maintained that the plea of general pardon is sufficient, and claimed the full benefit of the proclamation. It was for the prosecution, argued the question at issue.

THE ROARD OF HEALTH.

# THE BOARD OF HEALTH.

At the meeting of the Board of Health yes. terday, a complaint was made by citizens of Fourth-ave. between Seventy-ninth and Ninety-fourth st., against the Harlem Railroad Company, for stopping up the drains of houses, instead of making drains of their own. There is no other place for the said drains to run than into the tonnel. A previous order had been made by the Board for the gutters at the sides of the track to be cleaned out, and the water to be carried off in their drains. A certified copy of the complaint was ordered to be sent to the Common Council. A communication suggesting that no one under its years of age should be permitted to drive cattle through the streets, and that such drivers be licensed and wear a badge, and also be held responsible for any damage done by the cattle in their charge, was submitted to Counsel, who replied that the power asked for would be too questionable to be exercised by the Board. All now having slaughter-houses in operation in the city were ordered to be informed that their permits would be revoked on March 1, 1862. Dr. Harris states in his weekly letter that the week ending on the 19th that, was favorable to life in all portion of the city excepting in places and among those classes that have for weeks suffered most from diarrheal diseases. There were differed most from diarrheal diseases. There were differed most from diarrheal diseases. There were differed most from diarrheal diseases. The mean temperature last week was 63° Fahr, and in the six preceding weeks it was 74°, 76°, and 320° respectively. The extreme range of 255, and 335. The mean temperature has week was 63° Fahr, and in the six preceding weeks it was 74°, 76°, 74°, 76°, 74°, and 75°, respectively. The extreme range of temperature last week was extraordinary, the mercury having fallen from 22° on Sunday to 41° on Thursday morning. The mean temperature of the Summer in the 16 weeks ending last Saturday, as recorded by Dr. Loines at the Eastern Dispensary, Essex Market, was 71.22° Fahr. There were 25° deaths in Brooklyn during the past week and in the preceding six weeks, 281, 293, 287, 311, 269, and 267, respectively; of which, in the corresponding periods, 84, 104, 142, 159, 110, and 142 are charged to the diarrheal maladies. The percentage of this kind of mortality in that city last week is 53.30 of the total. And in New-York it is 27.77 of the total. Cholera infantum is charged with 53 of these deaths in the latter, and with 59 in the former city. There were 25 diarrheal deaths of adult persons in New-York, and 3 in Brooklyn. Of infants under one year of age, there perished in New-York 140, or 34.76 per cent of the total deaths, and of children under 5 years, 369, or 60 per cent. In Brooklyn the mortality in the same ages of childhood was 32.35 per cent, and 73.53 per cent respectively of the total number of deaths. per cent. In Brooklyn the mortality in the same ages of childhood was 32.35 per cent, and 73.53 per cent respectively of the total number of deaths. The greatest excess of mortality—in adults as well as in children—was experienced in the First, Sixth, and Seventeenth Wards, in the compactly-built district, and in filliby quarters of the Nine-teenth and Twenty-second Wards of the newer section of the city. Brooklyn now has its chief excess of preventable disease in its Ninth, Twelfth, and Sixteenth Wards. During a few weeks in Autumn, the malarial quarters of these cities and of the rural portions of the Metropolition to permanent damage to the health of great numbers of the resident population.

## YACHTING.

THE OCEAN RACE FOR THE VICE-COMMODORE'S PLATE-THE PHANTOM AND THE ADDIE V.

VICTORS. The morning dawned with a leaden sky, and the fleet was revealed at anchor off Staten Island. A fresh easterly breeze whistled among the regging and whipped the cordage against the masts. The steamer Charles Chamberlin, with the Committee of Awards, nembers of the press, and invited guests, came up to the

members of the press, and invited guests, came up to the rendezvous. Small sail, that were not to compete for the prize, and pilot boats with rakish masts, sailed to and fro. The steam-ting was busy towing the yachts into position, and carrying from the Commodore to the Captains the orders for the day.

The crews were now hoisting the mainsails, curling up loose rope, or making all things "taut" for the contest. The company on board the steamboat surveyed the sea and sky, scanned the yachts, discussed their points as a jockey would a race-horse, "spined the main-brace" many times and oft, devoured the sandwiches with the keen sppcific that Old Ocean gives to those who ride upon his domain; or, tired of waiting for the start, many impatient gentlemen improvised tatoes upon their opera glasses, stalked gloomily up the decks, and wondered with caused the delay.

impatient gentlemen improvised tattoes upon their opera glasses, stalked gloomily up the decks, and wondered want caused the delay.

The yacht of the Vice-Commodore rounded a point, and the beautiful Dauntless with her black hull, clear decks, tapering masts and spars, came in full view. Her deck was crowded with a distinguished company of ladies and gentlemen who waved their handkerchiefs in response to the cheers from yachts and steamers. Standing at the helm, wearing the cap of the Vice-Commodore, was the man who has given so much spirit to the New-York Yacht Club. The gellant owner of the Henrietta, "who sailed the seas over" and on a ceast noted for the excellence of their pleasure craft, lowered not his vessel's "whip," who presented the fast yacht of America to the first yachtman of England (Prince Alfred). James Gordon Bennett, ir. Cheer after cheer rang on the air, the band of the Dauntless playing airs from Le Grand Duchesse, while the canvas fluitered, the ropes rathed, and the yacht bounded over the water, the waves parting at the plunging bows and "spraying" on the deck. The yachts now ranged in line. First the sloops Addie, Sadie, Graele, White Wing, Nettle. Then the schooners Phanton, Palmer and Sylvie, a stones throw astern.

They lay at anchor with main-sail up, waiting the signal gau to say "start". It came just ten minutes before eleven, and there was lively work on board the yachts. The jibs ran up to kiss the foremast, the anchor sprung from its briny bed, and like hounds loosened from their slip, the winged coursers bounded over the waves. The Addie V seemed to lean to the front, and "hending away," bade the others follow. The Nettle and White Wing were in line, and the Sylvia leading the schooners, followed closely behind, with the Phantom in her wake. It was evident that this yacht was in good hands from the very start, for at the word "Go," she "hended ts business." The Palmer "fouled" her anchor and drifted for a time. The sloops keeping closely together, made for the horizon's bar, wi out at the Narrows, both hugging the Long Island shore, the black hull of the Sylvie was being overhauled. The next tack would tell the story, and far in the distance was the South-West Spit. The White Wing and the Addie V. now "crowded" for the lead; the former gained the windward, and the Addie V.'s sails fluttered in the breeze, but only for a time. At the South-West Spit the yachts came in the following order:

THE ENGLISH ELEVEN IN MONTREAL.

MONTREAL, Sept. 22 .- The cricket match be tween the All-England Eleven and the Twenty-two of Canada, was begun this morning. The Canadians won the toss, and sent Messrs. J. Brunel and Kickhoffer to the wickets against the bowling of Freeman and Willsher. The play on the part of the 22 was very wild, and they were all disposed of for 28 runs. The first ten wicket fell in the short space of one hour and a half for only 22 runs, and of the whole 22 batters 16 were returned to the Pavilion without adding to the score. The best batting was displayed by Mr. Rose of Montreal and J. Brunel of Toronto. The All-England Eleven sent to the wickets Humphrey and Jupp, who both played very steadily, and after a hard struggle Humphrey was bowled by Draper. They had scored 31 for one wicket, consequently they beat the first innings of the 22 without losing a wicket. Jupp was then joined by Smith, and when the stumps were drawn the game stood at 47 for one wicket.

The steamship Hibernia, from Glasgow Sept. 11, arrived this morning.

loss to that party must be felt. It gives the following reasons for its change:

First: Because we had a mind to do it Second: Because the party that was Democratic, that premised to lighten the taxes—that promised to give the country a low tax candidate, allowed an ignoble elique of traitors and bloated capitalists to force their disloyal tools upon the party. Third: Because if the Democratic ticket is elected, the Democratic party is defeated. Fourth: Because Grant and Colfax better fill the bill. Fifth: Because there is Rebel element enough in the Democratic party to control the party, and we desire to have liberty in the South at least long enough to give Northers fathers and mothers time to remove their dead sons where they can lie uninsuited by Democratic bone-trinket manufacturers. Sixth: We felt unwilling to furnish a free literature to a party that could not read.

DEMOCRATIC UNION GENERAL COMMITTEE.

A special meeting of this Committee was held last evening to hear the report of the sub-Committee which had been appointed to select a permanent Chairman of the organization. The Committee, through Alderinan Barney, reported the name of Smith Ely, ir., and stated that that gentleman would accept the position. Whyrenpon Mr. Ely was unanimously elected, and a Committee appointed to conduct him to the Chair. Mr. Ely then took the Chair, and said that in accepting the position of Chairman of the organization, he had but one object, and that was to aid by every means in his power the opposition to the corrupt despotism of Tammany Halinan institution whose nominations has damaged the Democratic candidate for the Presidency, and caused the Democracy of this city to be a stench in the nostrils of the nation. Mr. Ely said that the only hope of our tax-fidden citizens was in an honest Democratic organization that there were 100,000 Democratic voters in this city, of which not 20,000 were under the influence of the public robbers, and that the other 30,000 never received a dollar of the millions stolen, and were naturally in favor of an honest municipal government, and would have one as soon as they could find leaders on whom they could rely. Mr. Ely urged the Committee to keep up their fight against Tammany, and said that the time would certainly come when it would be as difficult for a thief to be elected to office as it now is for an honest man to be elected. The Chairman was directed to appoint an Fxecutive Committee of one from each Assembly District, and the Committee then adjourned to Oct. 1.

will meet in the Eleccker Buildings, Morton and Bleecker-sts., on Wednesday evening, Sept. 23. The Hon. Norman Stratton, Col. A. J. H. Duganne, and D. D. T. Davie, esq. will speak. The Excelsior Club of the VIIth District The Excelsior Clift of the VIIII District frant and Colfax Boys in Blue met in the St. John Hotel, last evening, and listened to short and spirited speeches by Capt. Harold, Major Lindsey, Sergt. Wm. Garretson, and others. The Club-has about 240 members, nearly all old soldiers. Twenty recruits were taken last evening.

The XIth Ward German Grant and Colfax Campaign Club held an enthusiastic meeting on Monday night, at No. 59 Avenne B. The meeting was well attended by the most intelligent citizens of the Ward. Mr. Straub, a citizen of this Ward, made a soul-stirring speech, and was followed by Dr. Schutz.

and Colfax Club was held at Hempstead Village, L. L., on the 21st inst. The new Wigwam, holding 500 or 600 peo-ple, was crowded in every part. About one-third of the sudience was ladder. Addresses were made by H. P. Crozier of Brooklyn, and Major Haggerty of S. H. P. audience was ladies. Addresses were made by H. P. Crozier of Brooklyn, and Major Haggerty of New-York, holding the audience until near 11 o'clock p. m. The Tremaine Brothers enlivened the meeting by stirring

campaign songs. The meeting was a grand success. The Republicans of the First Ward of Morris-The Kepublicans of the First Ward of Morrisania turned out in large numbers on Saturday night, the occasion being the raising of a large banner at the Republican headquarters of that Ward. Mr. Isaac Dayton attempted to address the meeting, but was so frequently interrupted by the hootings of a few "unterrified Jacksonians," that he was forced to desist. Mr. John C. Grant followed him, and, in spite of the noise and confusion, succeeded in delivering an address whose plain truths were so unpalatable to the Democracy that they at length retired in disgust.

The Boys in Blue of Westchester County The Boys in Blue of Westchester County will assemble at Lafayette Hall, in the village of White Plains, to-morrow noon. A very large gathering is expected, and the following distinguished gentlemen have promised to be present and participate in the proceedings: Major-Gen. John C. Fremont, Major-Gen. Kilpatrick, Major-Gen. Sickles, Major-Gen. Climan, Major-Gen. Fleasonton, Major-Gen. Sigel, Col. B. T. Morgan, and several others. The Peekskill Band and the Republican Gies Clubs of Yonkers, Sing Sing, and East Chester will add to the interest of the proceedings.

A nablow was eventually made, by Mr. Furey, to the effect that it was deemed inexpedient by the General Commit-tee to Join in the display. A substitute by Mr. Howel tee to John in the display. A substitute by Mr. Howe was adopted, that the subject be referred to the Exect live Committee, and that the Presidents of the different ward clubs be requested to attend a meeting, to be hel on Thursday evening next, to decide upon the matter.

The Republicans of the Tenth Ward The Republicans of the Tenth Ward of Brooklyn held a reusing mass meeting, last evening, in their wigwam, corner of Smith and Union-sta., under the auspices of the Tenth Ward Grant and Colfax Campaign Club. Mr. Norton, the President of the club, presided and addressed the meeting, and was followed by the Hon. Joshua Van Cott of Brooklyn, Major-Gen. W. T. Clark of Texas, Mr. J. L. Barbour of Hartford, and several others. The 23d Regument Band of Brooklyn was in attendance. A display of fireworks also took place. At the commencement of the meeting a number of Copperheads attempted to break up the meeting, but the ringleaders were removed by the police, and the proceedings went on peacefully for a short time, but were repeatedly interrupted during the night by the Rebel emissaries in the street.

and Verplanck, situated in South Eighth-st., near Prospect-st., Jersey City, was totally destroyed yesterday by the explosion of a quantity of gas which had escaped from the naphtha still located in the main building. To this ensued a fire, which destroyed all that part of the building not affected by the explosion. The refinery contained about 2,000 barrels of oil, in various stages of preparation, which was all destroyed. The engineer, Joseph Leisenberger, escaped to the street uninjured, but after the second explosion he went back to open the valves of the boiler to guard against its blowing up, and while thus engaged the third explosion occurred, he was caught in the debris of the building and burned to death. After a long search he was found lying on his buck, not a stitch of clothing about him, his flesh and bones burned to a crisp, and his legs and arms drawn up and contracted, presenting a fearful sight. Among the most seriously injured of the sufferers yet surviving is August Beitto, one of the yard men; his legs, body, arms and head are covered with blisters, and the poor fellow was not expected to survive until morning. He has a wife and one child hving at West Hoboken. Henry Udhea, one of the stillinen, was also dangerously burned in the face and on the right arm, and was conveyed to his home at No. 156 Morgan-st., where he has a wife, but no children. Theodore Hildebrand, the foreman of the refinery, was also burned about the face and both arms, and was also conveyed to No. 156 Morgan-st., where he has a wife and two children.

REMARKABLE FEAT ON FASHION COURSE TES-TERDAY—"J. STEWART" (TO WAGON) TROTS 20 CONSECUTIVE MILES IN 59 MIN. 23 SEC.

On Fashion Course yesterday, a trot of 20 conecutive miles, without intermission, in one hour, to wagon, was accomplished by the bay gelding, John wagon, was accomplished by the bay gelding, John Stewart of Beston. This animal is of Hambletonian stock, nextly put together, well proportioned, and lithe of limb. The feat which has gained this noble animal such renown, has never been accomplished by any other horse in this country. Flora Temple and Captain Metowan both attempted it, but failed; though the latter trotted 20 miles within one hour to harness.

About eight years ago, Trustee performed a like feat, to harness, on the Union Course, and it has been done also by Lady Fulton; but "J. Stewart" yesterday bore off the haurels for trotting to wagon. The gelding's racing time, proper, we should judge to be about 2:46; but it is claimed that he has made his mile in 2:34. The day yesterday was fine, and the track was in remarkably good order. A sprinkle of rain fell just before the trot was began. Time was the favorite when the pool-selling began, and continued so while the first five miles were being trotted; but as it became noticeable that good order. A sprinkle of rain fell just before an troc was begun. Time was the favorite when the pool selling begun, and continued so while the first five unless were being trotted; but as it became noticeable that Stewart passed the stand time after time without showing the least sign of fatigue, the betting took a turn, and odds were offered on the gelding. When at the end of the fifteenth mile it was ascertained that Stewart had 15 minutes and 51 seconds in which to trot the succeeding five miles, and that he still was fresh, the olds offered in his favor were two to one, with few takers; and when he came down the home stretch with accelerated speed, on the 19th, in the first half of which mile his driver had evidently eased him up, with a view of making a splendid dash on the last mile, \$100 to \$30 was offered that he would come off the victor. In reality Stewart trotted twenty-one miles; for he was driven once leisurely round the course before entering upon the first mile proper of the trial. This extra mile he made in 2:39. The following is a summary of his performance.

In trotting the first mile the gelding broke up, just as he was nearing the judge's stand, but his driver, young Hiram Woodruff, who handled the ribbons most artistically, soon got him down again into a trot, and he passed on to his second mile with a perfect gait. The only other break that occurred was on beginning the last (20th) mile, when about midway between the judge's stand and the quarter pole; but, as in the other instance, Woodruff's careful management almost immediately brought him down. On the first mile the quarters were made in 45, 43, 42, and 45; on the tenth they were 43, 45, 42½, and 46; and on the last mile, 45, 51, 45 and 40. When the gelding completed the trot, three cheers were sent up by the assembled spectators, and high encomiums were passed on both horse and driver.

TO GET WELL OR DIE-WHAT MUST BE DONE, AND ROW TO DO IT—THIS COURSE MUST N. PURSUED OR DEATH WILL FOLLOW—DR. SCHENCE'S COD. SE OF TREATMENT LAID DOWN TO CURE BAD CASES OF C. NSUMPTION.

A PLAIN STATEMENT OF FACTS. While offering my celebrated medicines to the afflicted, I feel that f

resent to the public nothing novel or strange.

The success of my inedicines in the cure of Pulmonary Complaints is too well established to admit of akepticism; their effect is too certain to require any combat with that projudice which usually amails the intro-

duction of a new article to the public. If the patient will persevere and follow the directions which accom-pany each bottle, Consumption must and will be cargd, and often when it

I do not wish to be understood to say that when lungs are destroyed any medicine can create them snew, but I do mean to say that when . patient has a violent cough night aweats, creeping chills. is emaciated effected. Sometimes the most eminent medical men are greatly mistaken in and ultating, or in the examination of the lungs. They see that the pa

has a distressing cough, and a great rattling of phiegm in the longs. which at once they pronounce tuberculous or pulmonary consumption.

Now, I will venture to say that two-thirds of the cases of consumption the United States, are caused by liver-complaint, or dyapepsia. The aucuous membrane of the bronchial tubes sympathizes with the liver and stomach, and frequent alight colds heaten it into bronchial consumption.

The Pulmonic Syrup is the best remedy known to ripen and expel al he impure matter from the lungs, and surpasses all other medicines in curing a cough, and all pulmonary disorders. The Seawed Tonic is a compound extract, carefully prepared from a common weed growing on the seashore. It readily dissolves the food in the stoungs, converting is

nto chyme; gives tone to the stomach, a healthy appetite and digestion, and strength and flesh to the Sceble and emsciated. ure stimulant, but its stimulating properties are as pure as the best French brandy. The Mandrake Pills cleause the stomach, and act upon the liver, which is more or less deranged in every case of Consumption; and the Mandrake Pill is the only remedy that contains no calomel of other injurious ingredient, that will restore this important organ so that

narmony. In bronchitis and laryngitis, or elergyman's sore throat, the liver must be acted on freely with the Mandrake Pills. Frequently in

diarrhea it is proper to take the Pilla to carry it off.

To cure consumption, or any disease leading to it, a strict course must be pursued, differing materially from that laid down by the faculty. In he first place, they must precent taking cold; even slight colds must be prevented. This must and can be done, or else there is no use in trying to be cured. In order to do this in Winter, the patient must stay in the bouse, and keep it one temperature with the thermometer; then walk about the house as much as possible to keep the blood in circulation, and at the same time practice breathing to expand the chest.

Physicians recommend patients to ride out and get the fresh sir. What

good does it do ! It may satisfy the patient's mind, but it lays them liable o take cold, perhaps not a heavy one, but enough to irritate the bronchis tubes, and yet hardly perceptible, but sufficient to throw them back two weeks, and they go on this way, and are never cured. All three of these medicines have full directions, and they are all taken at the same time, the same day; and any person, with a little judgment, with one lung nearly gone, can cure themselves without ever seeing me, although where it is convenient if is best to come and be examined with the respirometer, which only costs three dollars; then they will know their true condition. Thousands that have been confined to their beds with Consumption have been cured by them that I never saw. Keep the stomach cleansed of the mucus with the Pills and Tonie; the appetite will soon come; then est rich, greasy, healthy food; nature will soon begin to throw off the discase, and the patient will become fat and hearty. When these medicines get thoroughly through the system, persons are not near so luble to take cold, yet great care should be taken, for it is like any other disease—a relapse is very dangerous.

Many years ago I was given up as being in the last stages of Consump tion, and was taken from home in Philadelphia to my friends in Moores town, N. J., to die. I was soon taken down to my hed, and lay there many weeks, apparently in a sinking condition. Then I heard of and obtained these preparations of roots and herbs, which, to the astonishment seemed to me that I could feel them penetrate my whole system: the matter ripened in my lungs, and I would spit of more than a pint of offensive yellow matter every morning. My appetite was nearly gone at one time, but it became so great that it was with difficulty I could refrain from eating too much. My cough, fever, pain, and night-sweats all began o leave me; I gained in strength, and have been increasing in flesh ever since. My disease was bereditary; my father, mother, brothers, and sieers, all died of consumption.

Now I color the best of health, and have for years, weighing over 221 pounds. Immediately on my recovery I turned my attention to the science of medicine and the study of this particular disease. In fact, I was driven to it by the great number of people coming to me or sending for me from all parts to cure them; and I flatter myself at this day I have as much experience and success in the treatment of this disease as any other person in the country.
